PREFACE

Introduction

Readers will notice a number of changes between this, the 25th edition, and earlier editions of the *Ontario Government Publications Annual Catalogue*. As part of an effort to streamline production, the 25th edition has been produced using records from the Ontario Legislative Library's online catalogue database. Some of the changes represent enhancements made possible by the new production mode. Others simply reflect accommodations made necessary by the international cataloguing standards which govern library catalogues.

Scope

The general scope of the *Annual Catalogue* is unchanged. It cumulates the 1996 issues (volume 26) of the *Ontario Government Publications Monthly Checklist,* which lists publications available to the public, either through Publications Ontario or directly from the issuing ministry or agency. In keeping with the *Annual Catalogue's* role as a reference source, it also includes any publications not available for public distribution that came to the Library's attention during 1996.

Like its predecessors, this edition includes books, pamphlets, maps, microfiche, audiocassettes, videocassettes, computer disks, CD ROM's, and kits published or co-published by Ontario government ministries and agencies. New to this edition is the inclusion of publications available via the Internet. Print titles are listed if they were received in the Legislative Library in 1996 and had never been listed before. Internet coverage begins with titles mounted in October.

Two types of material have been omitted because they could not be extracted from the Library's database in a meaningful format.

- Periodicals, whose first and last issues of the year have traditionally been listed, do not appear in this edition. Plans are underway to re-introduce periodicals to the *Ontario Government Publications Monthly Checklist,* most likely by listing new titles as they are released.

- Order and investigation reports of the Information and Privacy Commission likewise are absent for technical reasons. They can be downloaded for free from the Commission's website <http://www.ipc.on.ca/> or purchased in paper from Publications Ontario.

Organization and Indexes

The overall arrangement continues to be alphabetical by ministry or agency, with separate sections for English and French publications. Bilingual publications are no longer listed twice; instead, they appear only in the English section. They can be found under their French titles, names, and subjects in the "Name/Title Index des noms/titres" and the "Index des matières".

As in the past, debates and other parliamentary papers, bills, and office consolidations of acts appear under the heading LEGISLATIVE ASSEMBLY. To improve access, subentries for these important categories of material have been included under the LEGISLATIVE ASSEMBLY entry in the "Table of Contents".

A new heading has been created for titles issued by the government in general. Titles such as *The Ontario Gazette* and *The Statutes of Ontario* can be found under GOVERNMENT OF ONTARIO which appears before all other ministries and agencies. Similarly, GOUVERNEMENT DE L'ONTARIO is the first entry in the French section.

Because titles are listed under the name of the ministry or agency that appeared on the item at the time of publication, government bodies that reorganized in the last few years can have entries under both current and earlier names, depending on the age of their publications. Names that appear in two forms are flagged with brief history notes in the "Table of Contents".

Availability of Publications

Past editions have shown the price and depository status for only those titles that Publications Ontario distributes. To make it easier for readers to obtain copies of all publicly available documents, the current edition lists the original price and ordering instructions for all titles that were intended for public distribution, including those distributed by ministries and agencies themselves. Publications which were never distributed to the public are marked "Not Available."

Record Format and Conventions

Some changes have been made to the way titles are entered and described.

- Many serial publications, such as annual reports, used to have separate entries for each edition or issue. All editions and issues are now gathered under one entry for the title.
- Pagination does not appear for serial publications and pamphlets.
- The entries for office consolidations and bills have been shortened. Bills are listed under their more familiar short titles, instead of their official titles.

Guide to Symbols

PRÉFACE

Introduction

Les lecteurs noteront un certain nombre de modifications entre cette vingt-cinquième édition et les éditions précédentes du *Catalogue annuel des publications du gouvernement de l'Ontario.* En effet, dans le but d'accélérer la production, la vingt-cinquième édition a été préparée en utilisant les données de la banque de données du catalogue en ligne de la Bibliothèque de l'Assemblée législative de l'Ontario. Certaines modifications représentent des améliorations rendues possibles par le nouveau mode de production. D'autres reflètent simplement des changements nécessaires á cause des normes internationales de catalogage qui gouvernent les catalogues de bibliothèques.

Contenu

Le contenu général du *Catalogue annuel* reste inchangé. Il contient les numéros de 1996 (volume 26) des *Listes mensuelles des publications du gouvernement de l'Ontario,* qui donne la liste des publications á la disposition du public, soit par l'entremise de Publications Ontario, soit directement auprès du ministère ou de l'organisme l'ayant publié. Conformément á son rôle de livre de référence, le *Catalogue annuel* mentionne également toutes les publications non destinées á la distribution publique qui sont parvenues á l'attention de la Bibliothèque en 1996.

Comme les précédentes, cette édition comprend les livres, brochures, cartes, microfiches, cassettes audio et vidéo, disquettes informatiques, CD ROM et trousses publiés ou co-publiés par les ministères les organismes du gouvernement de l'Ontario. Les nouveautés dans cette édition comprennent les publications disponibles sur l'Internet. Les titres de publications sont inclus si elles ont été reçues par la Bibliothèque de l'Assemblée législative en 1996 et n'ont pas été mentionnés préalablement. Pour l'Internet, les titres commencent á partir d'octobre.

Deux types de publications ne sont pas inclus parce que les données de la banque de données de la bibliothèque ne pouvaient pas être retirées sous forme utilisable.

- Les périodiques dont le premier et le dernier numéro de l'année étaient traditionnellement mentionnés, ne le sont plus dans l'édition présente. Des préparatifs sont en voie de réalisation pour ré-introduire les périodiques dans la *Liste mensuelle des publications du gouvernement de l'Ontario,* sans doute en donnant les nouveaux titres au moment de leur première publication.
- Les rapports d'ordres et d'enquêtes du Commissaire á l'information et á la protection de la vie privée sont également omis pour des raisons techniques. Ils peuvent être obtenus gratuitement á partir du site web du Commissaire http://www.ipc.on.ca/ ou sont en vente auprès de Publications Ontario.

Organisation et index

La disposition générale continue sur le même modèle : liste alphabétique par ministère ou organisme, avec des sections séparées pour les publications en français et en anglais. Les publications bilingues, au lieu de paraître deux fois, ne paraissent plus que dans la section anglaise. On peut toutefois les trouver sous leur titre, nom et sujet en français dans « Name/Title Index des noms/titres » et dans « Index des matières » .

Comme par le passé, les débats et les autres documents parlementaires, projets de loi et refontes de bureau de lois paraissent sous le titre ASSEMBLÉE LÉGISLATIVE. Pour

améliorer l'accès, les sous-entrées pour ces catégories importantes de publications sont incluses dans la table des matières sous l'entrée ASSEMBLÉE LÉGISLATIVE.

Un nouveau titre a été créé pour les titres publiés par le gouvernement en général. Les titres tels que *La Gazette de l'Ontario* et les *Lois de l'Ontario* se trouvent sous GOUVERNEMENT DE L'ONTARIO, qui parait avant tous les ministères et organismes, au début de la section française.

Du fait que les titres paraissent sous le nom du ministère ou de l'organisme qui parait sur la publication au moment de la publication, les éléments du gouvernement qui ont été réorganisés ces dernières années peuvent avoir des entrées sous leur ancien nom et leur nom actuel, selon l'âge de la publication. Les noms qui paraissent sous deux formes sont signalés par une brève note historique dans la table des matières.

Disponibilité des publications

Les anciennes éditions donnaient le prix et l'état d'inventaire pour les publications distribuées par Publications Ontario seulement. Pour rendre la tâche plus aisée aux lecteurs qui souhaitent se procurer des exemplaires de publications disponibles pour le public, l'édition présente donne le prix d'origine et les renseignements pour les commander pour tous les titres destinés á la distribution publique, y compris les publications distribuées par les ministères et les organismes eux-mêmes. Les publications qui n'ont jamais été distribuées au public sont indiquées par « Non disponible » .

Disposition des entrées et conventions

Certains changements sont intervenus dans la façon dont les titres apparaissent et leur description.

- Un bon nombre de publications en série, telles que les rapports annuels, avaient autrefois des entrées séparées pour chaque édition ou chaque numéro. Toutes les éditions et tous les numéros sont désormais regroupés sous une seule entrée au titre.
- La pagination ne parait pas pour les publications en série et les pamphlets. Les entrées pour les refontes de bureau et les projets de loi ont été raccourcies.
- Les projets de loi paraissent sous leur titre abrégé, plus familier, plutôt que sous leur titre officiel.
